

Selected as a “J-Startup KANSAI” company

Kobe City, Japan -October 21, 2020-

Bio Palette Co., Ltd (Head Office: Nada-ku, Kobe City, Representative Director: Dr. Shoko Murase) has been selected as one of the companies for the "J-Startup KANSAI" program promoted by the Kansai Bureau of Economy, Trade and Industry to support promising startups in the Kansai region.

31 companies were selected based on recommendations from 76 leading entrepreneurs, venture capitalists, and accelerators who are familiar with the Kansai region's startups, with the aim of selecting and supporting companies by local community. The program is designed to support the rapid growth of the selected companies by providing intensive support through collaboration between public and private institutions.

What is “J-Startup KANSAI”?

The Ministry of Economy, Trade and Industry (METI) launched "J-Startup", a program to support startup companies across the country in 2018 in order to create globally active companies. J-Startup KANSAI is a new regional version of the Ministry of Economy, Trade and Industry's J-Startup program, which is being developed in conjunction with the Startup Ecosystem Base Formation Project led by the Cabinet Office. 31 promising startups from the Kansai region were selected as "J-Startup KANSAI" and intensive support will be provided by the public and private sectors in collaboration with each other. The Kansai Bureau of ETI will identify a group of promising startups that will serve as role models and further strengthen the startup ecosystem in the region, by building a system to support and encourage them by local community.
